

19 December 1957

STATINTL

Subject: Transmittal of Contract [REDACTED] Amendment No. 1

Dear Sir:

Please find attached hereto the fully executed original and one copy of the subject contract. We have retained one fully executed copy for our files.

The terms and conditions as presented in the subject amendment dated 26 November 1957 are satisfactory to us except for the following changes in the Project Plan:

1.2.1.9 should read:

The interconnecting cable between camera body and magazine will be attached to the body by an AN screw-type connector and lock-wired in place so that the cable will function as a pendant cable.

1.2.2.7 should read:

The HM-818 magazine will use one 7-pin electrical power connector and one 2-pin signal light connector.

1.2.3.5 should read:

The connector cable on the HS-732 shutter will be replaced with a plug-in type of 8-pin connector.

1.2.3.6 should read:

The shutter will be rubber-mounted to provide shock isolation.

1.3.2.4 should read:

....(double row, if possible)....

1.3.2.16 should read:

Provide one 7-pin electrical connector, retain 2-pin signal light connector.

1.3.3.1 should read:

The electrical cable of the HS-732 shutter will be removed and replaced by an 8-pin connector mounted on the shutter.

1.4.2 should read:

A carrying case will be provided for each shutter.

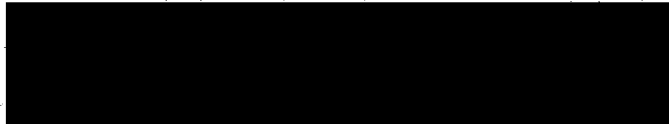

We have executed the subject contract amendment with the understanding that the above changes will be incorporated as a part of this contract.

We trust that you will find these changes in conformance with the present program plans.

Very truly yours,

HYCON MFG. COMPANY

STATINTL

Vice President

TLB/ps

Proposed changes approved.
